- g. Working your way around to the right-side cab of the truck, spray door handles and any contact surfaces.
- h. Spray the interior of the right side of the truck the same as the left side of the truck.
- i. Working to the rear of the truck, enter the side entrance of the patient cab and spray, what can be reached from the step.
- j. Entering the rear of the patient compartment spray the remaining areas that have not been touched already.
- k. When the balance of the vehicle has been completed you can proceed to decon personnel as needed.

V. **Equipment Maintenance / Care**
